CASE STUDY

EASYPIT® ULTRA | EASYGRIP®

CNG Refuelling Station

ReFuels N.V., one of Europe's leading suppliers of renewable biomethane (Bio-CNG) for the decarbonisation of heavy goods vehicles, commenced construction of a new refuelling station at Doncaster in South Yorkshire — one of the UK's largest logistics hubs.

Advanced supplied its EasyPIT® ULTRA chamber system together with EasyGRIP® composite covers. The site features 10 fuel pump islands, allowing more than 500 trucks to be refuelled daily with a total capacity of more than 19 million kilograms of Bio-CNG annually.
