CASE STUDY

EASYRISER®

Bovis Homes — Redhill Way

This new residential development consists of 2, 3 and 4 bedroom homes with easy commuting links to Telford, Shifnal, Kidderminster and the surrounding Shropshire countryside. The homes are designed to be sustainable from the build process through to the final product, with the site boasting over 10 Olympic-sized football fields worth of green space.

Working with our local civils merchant partners, Advanced supplied its EasyRISER® stormwater manhole ladder system to provide both egress and ingress to the stormwater manholes below.
